Here, the steep mountains to be encountered in most of the Cyclades give way to low, rocky hills which combine with superb beaches to make up the landscape of the island.

Mykonos is a busy island with all the amenities of a modern resort and with plenty to do by day or night for those who want to have a lively time. Yet visitors' fond of more peaceful holidays will still find quiet corners in which to relax.

Mykonos, the most visited of the Greek islands, has a night life unlike any other!

Day 03

The capital, Hora, with its colourful harbour in which little fishing boats nestle happily side by side with luxury yachts, presents quite a different picture from the majority of Aegean island towns. While it is usual for island villages to be built on naturally amphitheatrical sites, Mykonos is spread out over a flat area and conveys an impression of lid aesthetic cohesion. Along the whitewashed streets stand brilliant white box shaped houses with stepped walls for sitting on, wooden doors and windows and brightly-coloured balconies. These are interspersed with small but impressive churches, pretty little tavernas and shops selling souvenirs and other goods, and the overall sense is of being inside a film set.

Dinner and Party on a Beach Restaurant.
Transfer to the Hotel for overnight .

One of the most popular journeys of Phoebus is to the island of Delos, the birthplace of the god Apollo , or the Cruise to the beaches , know as " Beach Hopping " .
