Day 03

Breakfast at the Hotel and transfer to Athens Airport for a flight to the world famous island of Santorini . Santorini is the most southern island of the Cycladic group in the Aegean Sea, and the most active volcanic centre in the Aegean Arc, though what remains today is largely a caldera. The name Santorini was given to it by the Venetians in the 13th century and is a reference to Saint Irene. Before then it was called Kallisti, Strongili or Thera. The island was the site of one of the largest volcanic eruptions of the last several thousand years when it erupted cataclysmically about 3,500 years ago. The eruption left a large caldera surrounded by ash deposits hundreds of feet deep, and its effects may have indirectly led to the collapse of the Minoan civilization on the island of Crete, to the south. It has also been said that the sunsets in Santorini are the best in the world... From the Caldera breathtaking views of the volcano & neighbouring islands. From the east, miles of dark sandy or pebbled beaches. Everywhere one sees small domed churches and remnants of days gone by. This is Santorini seen through the eyes of people who Know and love it. Transfer to your hotel .
